TITLE : CONCRETE DISTRIBUTOR

ABSTRACT : PURPOSE: To distribute concrete movably on reinforcements by winding up a vehicle having a pair of left and right low-pressure crawlers made of rubber, with a hose to be payed out, and by swinging the flexible hose with the tip connected to a fixed transportation pipe set outside the vehicle, on the vehicle.

CONSTITUTION: A vehicle 1 having a pair of left and right low-pressure-crawlers 2 made of rubber is provided with a hose take-up device 4. After that, the hose take-up device 4 is wound up with a flexible hose 5 with the tip connected to a fixed transportation pipe 8 set outside the vehicle. After that, to the rear end of the flexible hose 5, a swinging transportation pipe 6 is connected. Then, on the vehicle 1, the hose take-up device 4 is wound up with the flexible hose 5 to be payed out, and at the same time, the vehicle 1 is run on reinforcements by the crawlers 2. Besides, on the vehicle 1, the swinging transporation pipe 6 is swung.
